

NALAM360 • MULTI & SUPER-SPECIALITY HOSPITALS

UNIFIED DIGITAL ECOSYSTEM

A PRODUCT OF

NALAM360 BY CLINEXGEN

Charted at the bedside, billed from the same entry.

Hospital management for multi- and super-speciality hospitals: one record from the front desk to the final claim, so care already given reaches the bill.

WHAT CHANGES · MEASURED BEFORE AND AFTER ON YOUR OWN DATA, NEVER PROMISED

Unbilled charges

Bedside, pharmacy and theatre entries compared with final-bill lines.

Day close

Hours to close the day, with the role dashboards matching bills and receipts.

Claims returned

Claims returned or short-paid, against a claim raised from the complete episode.

Discharge time

From discharge advice to the bill in hand.

HOW IT WORKS · ONE RECORD FOR THE WHOLE EPISODE

OP and IP stay apart. OP tests and medicines go on the OP bill; in-patient charges land on the episode as they happen, and the claim is raised from the complete episode.

WHO IT IS FOR · THREE EDITIONS

Hospitals above 100 beds, and multi- and super-speciality hospitals with ICUs. Up to 100 beds: Nucleus. No in-patient beds: Casebook.

Enterprise

Several hospitals or branches, one patient identity

Professional

Blood bank, claims to the UTR, approvals and reversal console

Standard

Multi-speciality core, one hospital

BUILT FOR TRUST

Hospital, branch and role access layers

Activity log and approval history
